

www.IdealHealth.com

Ideal Health, Inc. commenced business in 1996, but Grimes & Reese was with us long before the doors ever opened. While still in the corporate formation stage we knew of the firm's reputation as the finest MLM attorneys in the country, and we further knew that they serviced many of the largest network marketing companies in the world. Because of the firm's reputation we were not sure if they would take us on as a client since we were just a tiny start-up. But we wanted the best, so we went ahead and gave them a call. Were we ever amazed! Not only did they welcome us, but Spencer Reese treated us like we were the firm's only client! It turns out that they work with many start-ups, and after speaking with other clients of the firm, I have found that this is the experience they all enjoy.

Ideal Health is no longer a start-up. In fact, we have enjoyed phenomenal growth over the years, and we are ecstatic that Grimes & Reese has been with us all along the way. We continually present Spencer with legal issues ranging from compensation plan analyses, advertising and marketing legalities, FDA and FTC regulatory issues, and distributor compliance matters. The work is always accurate, clear, concise, on-time, and within budget (working within budget is a critical concern that we have found is often overlooked by other attorneys). However, while their skill as MLM attorneys is unparalleled, they also bring to the table a wealth of experience beyond strictly legal ability. Through their intimate knowledge of the network marketing industry they are an invaluable resource that we regularly tap into for ideas on marketing and running the business.

It has truly been a privilege to work with Grimes & Reese. Our experience shows that they have the knowledge and a sincere desire to work with us to ensure that we achieve the pinnacle of success, and we look forward to working and growing with them for many years to come.

Very truly yours,

Scott Stanwood
Executive Vice President
Ideal Health, Inc.
